Connect Wallet

Connect Wallet

Connect your Metamask wallet by either selecting **Connect Wallet** tab on your smart phone or doing this directly from your wallet if it does not open automatically.

Fair Trader works best with Metamask wallet on all chains. Other wallets will be added in the near future.

If you do not have a digital wallet, please download Metamask wallet here: **https://metamask.io**

Select Network (BSC)

Select Network

Once logged into your wallet, select the Network you wish to use from Ethereum, Binance Smart Chain or Polygon.

The FTP Exchange will be first enabled to work on BSC (Binance Smart Chain). Ethereum and Polygon blockchains will be added during the year

* The rate shown is just an approximation and it is slightly less than what is actually sent. Therefore, most likely the amount received will be higher than what is disclosed in this field
** Please note we do not allow purchases from USA and other restricted countries

Select your currency and the amount you wish to buy. Please note that a minimum of $10 USD purchase is required. You will need to provide your wallet details and your email address and then follow a simple KYC (identification) process after the purchase.

View FTP assets

Check my FTP assets

Simply click on the 'Assets' link at the bottom of the screen and your FTP tokens will be displayed.

The Assets screen will also show you the total amount of FTP tokens you have Staked against your wallet.

See example on the left.
